Introduction

The role of a CEO is evolving in an era defined by rapid technological advancements, shifting workforce dynamics, and globalized markets. "The Future CEO: Strategy, People, and Tech" is a comprehensive 5-day course designed to equip aspiring executives with the critical skills and insights needed to lead effectively in this fast-paced environment. Participants will explore strategic thinking, people management, and technological integration to navigate and drive organizational success.

- Understand the evolving role of the CEO in the modern business landscape.
- Develop strategic decision-making skills for complex and uncertain environments.
- Master people management techniques to foster a motivated and high-performing team.
- Explore the impact of emerging technologies on business operations and strategy.
- Create a personalized action plan to implement course learnings in real-world scenarios.
