

London TDM

Finance and Accounting

Course Venue: Malaysia - Kuala Lumpur

Course Date: From 19 October 2025 To 23 October 2025

Course Place: Royale Chulan Hotel

Course Fees: 6,000 USD

Introduction

The "Blockchain, FinTech, and Financial Innovation" course is designed to provide participants with a comprehensive understanding of the transformative capabilities of blockchain technology and its applications in the financial services industry. This course offers insights into how FinTech innovations are reshaping traditional financial processes, enhancing transparency, and enabling new business models. By the end of this course, participants will be equipped with the knowledge and tools to leverage blockchain and FinTech solutions for various financial applications.

Objectives

- Understand the fundamentals of blockchain technology and its role in FinTech.
- Explore the impact of blockchain on traditional banking and financial services.
- Analyze different FinTech innovations and their applications in the finance sector.
- Examine case studies of successful blockchain and FinTech implementations.
- Develop strategies to integrate blockchain and FinTech solutions in business operations.

Course Outlines

Day 1: Introduction to Blockchain Technology

- Overview of Blockchain: History and Key Concepts
- How Blockchain Works: Consensus Mechanisms and Cryptography
- Types of Blockchains: Public, Private, and Consortium
- Blockchain Platforms: Bitcoin, Ethereum, Hyperledger
- Current Challenges and Future Trends in Blockchain

Day 2: Blockchain in Financial Services

- Blockchain for Payment Systems and Digital Currencies
- Smart Contracts: Automation and Efficiency
- Decentralized Finance (DeFi): Concepts and Applications
- Identity Management and KYC with Blockchain
- Risk Management and Regulatory Considerations
