London TDM

Project Management Training Courses

Course Venue: United Kingdom - London

Course Date: From 15 February 2026 To 19 February 2026

Course Place: London Paddington

Course Fees: 6,000 USD

Introduction

Lean Project Management is an approach that seeks to maximize customer value while minimizing waste throughout the project lifecycle. This 5-day professional course is designed to equip participants with the tools, techniques, and mindsets necessary to implement lean principles effectively in project management environments. Participants will gain insights into streamlining processes, enhancing efficiency, and delivering higher value to clients.

- Understand the principles and concepts of Lean Project Management.
- Identify and eliminate waste in project processes.
- Apply lean tools and techniques to real-world project scenarios.
- Enhance team collaboration and communication through lean practices.
- Measure and improve project performance consistently.
