

London TDM

Procurement and Supply Chain Management Training Courses

Course Venue: United Arab Emirates - Dubai

Course Date: From 19 October 2025 To 23 October 2025

Course Place: Downtown Dubai

Course Fees: 5,000 USD

Introduction

Effective inventory planning and control are critical to the success of any business involving the management of supply chains, stocks, and resources. This 5-day professional course is designed to equip participants with the necessary skills and tools for optimizing inventory processes, improving service levels, and reducing costs. Through a blend of theoretical insights and practical applications, attendees will gain a comprehensive understanding of inventory management practices essential for operational excellence.

Objectives

- Understand the fundamentals of inventory management and control.
- Learn techniques to optimize inventory levels and reduce costs.
- Implement strategies for effective demand forecasting.
- Utilize inventory management systems and tools effectively.
- Apply best practices for continuous improvement in inventory processes.
