

London TDM

Health, Safety, and Environment (HSE) Training

Course Venue: Malaysia - Kuala Lumpur

Course Date: From 26 October 2025 To 30 October 2025

Course Place: Royale Chulan Hotel

Course Fees: 6,000 USD

Introduction

This five-day course, "Workplace Safety for Non-HSE Professionals," is designed to equip employees from various departments with the essential knowledge and skills required to contribute to a safe working environment. Participants will learn fundamental safety principles, how to identify potential hazards, and the best practices for preventing workplace incidents. This course is tailored for professionals who are not part of the Health, Safety, and Environment team but play a crucial role in maintaining safety standards within their organizations.

Objectives

- Understand basic workplace safety concepts and practices.
- Identify and assess potential workplace hazards.
- Learn effective communication strategies for safety information.
- Develop skills to contribute to safety programs and initiatives.
- Foster a culture of safety within the workplace.

Course Outlines
