

London TDM

Health, Safety, and Environment (HSE) Training

Course Venue: Malaysia - Kuala Lumpur

Course Date: From 19 October 2025 To 23 October 2025

Course Place: Royale Chulan Hotel

Course Fees: 6,000 USD

Introduction

The "Environmental Impact Assessment (EIA)" course is designed to equip professionals with the necessary skills and knowledge to conduct effective EIAs. This five-day course covers the principles, processes, methodologies, and legal aspects of EIAs, providing participants with hands-on experience and the ability to apply best practices in real-world scenarios.

Objectives

- Understand the concept and significance of Environmental Impact Assessment (EIA).
- Learn the legal and regulatory framework governing EIA processes.
- Develop skills in conducting impact assessments and preparing reports.
- Analyze case studies to identify best practices and common challenges in EIA.
- Foster an interdisciplinary approach to addressing environmental issues.

Course Outlines

Day 1: Introduction to EIA

- Overview of Environmental Impact Assessment (EIA)
- Historical development and evolution of EIA
- Key components and stages of the EIA process
- Purpose and benefits of conducting an EIA
- Introduction to relevant international EIA guidelines

Day 2: Legal and Regulatory Framework

- Overview of environmental laws and regulations
- Legal requirements for EIA in different jurisdictions
- The role of governmental and non-governmental organizations in EIA
- Interpreting and applying legal standards in EIA
- Understanding public participation and consultation processes

Day 3: EIA Methodologies and Tools

- Qualitative and quantitative assessment methods
- Data collection and analysis techniques
- Use of Geographic Information Systems (GIS) in EIA
- Environmental modeling and prediction tools
- Assessing cumulative and strategic environmental impacts

Day 4: Conducting an Effective EIA

- Scoping and baseline studies
- Impact identification and evaluation
- Mitigation measures and alternatives analysis
- Preparation and presentation of EIA reports
- Reviewing and approving EIA reports

Day 5: Case Studies and Best Practices

- Analysis of successful EIA case studies
- Challenges and lessons learned from EIA implementations
- Developing EIA strategies for complex projects
- Interactive group discussions and problem-solving exercises
- Future trends and innovations in EIA practices
