

London TDM

Oil and Gas Industry Training Courses

Course Venue: United Kingdom - London

Course Date: From 17 May 2026 To 21 May 2026

Course Place: London Paddington

Course Fees: 7,500 USD

Introduction

This 5-day professional course, "Energy Policy and Regulatory Frameworks," is designed to provide participants with a comprehensive understanding of the intricacies involved in energy policy-making and regulatory frameworks. It aims to equip professionals with the necessary tools and knowledge to navigate the complex landscape of energy regulations, enhance policy design, and promote sustainable energy initiatives.

Objectives

- To understand the fundamental concepts of energy policy and regulations.
- To analyze the role of government and regulatory bodies in energy systems.
- To evaluate the impact of various regulatory frameworks on energy markets.
- To explore international case studies and best practices in energy policy.
- To develop strategies for implementing effective energy regulations.
