

London TDM

Oil and Gas Industry Training Courses

Course Venue: United Kingdom - London

Course Date: From 17 May 2026 To 21 May 2026

Course Place: London Paddington

Course Fees: 7,500 USD

Introduction

In the rapidly evolving energy industry, crises can pose significant threats to operations, safety, and reputation. This comprehensive 5-day course is designed to equip professionals with the skills and knowledge needed to effectively manage and mitigate crises. Participants will learn best practices, engage in real-life case studies, and develop strategic plans to enhance their crisis management capabilities.

Objectives

- Understand the types of crises that can occur in the energy industry.
- Develop a strategic approach to crisis management.
- Learn to communicate effectively during crises.
- Analyze real-world case studies of crisis management within the industry.
- Create a crisis management plan tailored to specific organizational needs.
