London TDM

Security Management and Risk Protection Training Courses

Course Venue: Malaysia - Kuala Lumpur

Course Date: From 16 November 2025 To 20 November 2025

Course Place: Royale Chullan Hotel

Course Fees: 6,000 USD

Introduction

This five-day professional course provides a comprehensive guide to intelligence gathering and analysis techniques. Designed for analysts, security professionals, and those involved in strategic decision-making, the course will offer insights into effective methods of gathering, processing, and analyzing intelligence data. By exploring a range of techniques, tools, and real-world applications, participants will acquire the skills needed to enhance their intelligence capabilities and drive actionable insights.

Objectives

- Understand the fundamentals of intelligence gathering and analysis techniques.
- Learn how to utilize various data sources effectively.
- Acquire skills in critical thinking and data interpretation.
- Develop proficiency in using analytical tools and software.
- Apply intelligence techniques to real-world scenarios.

Course Outlines

Day 1: Introduction to Intelligence Gathering

- Overview of intelligence gathering basics
- Types of intelligence and their applications
- Sources of intelligence data
- Ethical considerations in intelligence activities
- Workshop: Developing an intelligence collection plan

Day 2: Data Collection and Management

- Techniques for acquiring open-source intelligence (OSINT)
- Human intelligence (HUMINT) collection methods
- Signals intelligence (SIGINT) fundamentals
- Data management and storage best practices
- Workshop: Organizing and managing collected data

Day 3: Analytical Techniques and Tools

- Introduction to analytical frameworks
- Trend analysis and pattern recognition
- Using technology in intelligence analysis
- Evaluating sources and verifying data
- Hands-on session: Utilizing analytical software

Day 4: Intelligence Reporting and Dissemination

- Creating effective intelligence reports
- Visualizing data for intelligence briefings
- Techniques for presenting intelligence findings
- Security protocols in intelligence dissemination

- Case study: Successful intelligence dissemination strategies

Day 5: Application and Real-World Scenarios

- Application of intelligence in different sectors
- Developing strategic insights from intelligence
- Mock exercises: Intelligence crisis simulation
- Ethical challenges in intelligence decision-making
- Course review and feedback session
